No. 6. Income Tax and Social Services Contribution Payable on Incomes Derived by Individuals, 1960-61 to 1963-64

The Commonwealth Government is the sole authority in Australia levying taxation on incomes. The tax on incomes is imposed as a single levy called Income Tax and Social Services Contribution.

This table gives examples of the amount of tax payable on incomes derived by individuals in recent years. The "Actual Incomes" are amounts of income before any deductions of a concessional nature have been made. In calculating the tax payable, no allowance has been made for concessional deductions other than for the dependants indicated in the headings.

* Includes contributions under Federal Aid Roads Act, £468,692.

† Cash balance in fund at 30th June, 1963, amounted to £736,438.

Note. In terms of the Financial Agreement contributions are paid annually to the National Debt Sinking Fund in respect of N.S.W. debt, as follows:—

1. For 58 years from 1st July, 1928, on net debt outstanding at 30th June, 1927: (a) 2s. 6d. per cent. by Commonwealth, (b) 5s. per cent. by State.

2. For 53 years on new loans raised after 30th June, 1927 (except for revenue deficits): 5s. per cent. each by Commonwealth and State. Upon agreement that a loan expended on wasting assets should be redeemed within a shorter period, the State's contribution is increased to provide for redemption within the period fixed, allowing for accumulation at 4½ per cent. compounded.

3. On loans raised to meet a revenue deficit accruing after 30th June, 1927:—

(a) Special deficit loans incurred in depression: 5s. per cent. each by Commonwealth and State until 30th June, 1944, thereafter for 39 years 5s. per cent. by Commonwealth and 15s. per cent. by State;

(b) On other deficit loans: at least 4 per cent., payable by the State, to be accumulated at 4½ per cent. per annum, compounded.

4. Interest on cancelled securities at the rate of 4½ per cent.

Additional contributions are paid by the State to recoup amounts appropriated from the Sinking Fund for discounts on conversions since November, 1936. The additional contributions are spread over the currency of the conversion loans, and the first payment was made in 1938-39.

No. 35. New Money Capital Raised by Australian Companies, 1955-56 to 1962-63

These statistics relate to new capital raised by companies incorporated in Australia and the Australian Territories, distinguishing between companies listed on the Australian Stock Exchanges (*listed companies*) and all other companies (*unlisted companies*). *New money raised* is the net amount of cash transferred from the investing public to the companies, and consists of the total amount of cash received by the companies less the amounts not involving a transfer of funds from the investing public (cash subscribed by associated companies, and other cash subscriptions used to redeem shares, debentures, etc. or to purchase existing shares, debentures, etc. in other companies). Borrowings by bank overdraft and temporary advances, deposits accepted by banks, insurance and pastoral companies, and building societies, and loans to authorised dealers in the short-term money market are excluded from the statistics. Many figures have been revised since last issue.

No. 38. Gross and Net Annual Inflow of Private Oversea Investment to Australia, by Domicile of Investor, 1952-53 to 1961-62

Note. The statistics in Tables 38 to 41 relate to the following annual flows of investment between Australia and overseas countries (including Papua and New Guinea):—

(a) direct overseas investment in companies in Australia (incorporated and unincorporated businesses);

(b) portfolio investment in companies in Australia by overseas investors;

(c) overseas investment in Commonwealth Government and local government and semi-governmental securities; and

(d) investment overseas by Australian businesses.

Other classes of investment (e.g. investment in real estate in Australia by non-residents other than companies included in the statistics, and loans by non-resident individuals to Australian individuals) are not covered by the figures. Inflows to Australia and outflows from Australia are shown net of withdrawals of investment. Investment income payable overseas is the amount payable out of profits earned by companies (other than life assurance companies) operating in Australia. Complete definitions of the terms used, and further particulars of investment flows, are given in *Annual Bulletin of Oversea Investment: Australia* issued by the Commonwealth Statistician.

§ In 1958, 1959, and 1960, some offices made changes in the method of valuing overseas liabilities and assets. As a result of these changes, the statutory life assurance funds were increased by £13,649,000 in 1958, £42,478,000 in 1959, and £340,994 in 1960.

No. 56. General Insurance*: Premiums, Claims, and Expenses in New South Wales, 1952-53 to 1962-63

Tables 56 to 58 contain selected items of statistics which conform substantially to the following definitions and should not be construed as "profit and loss" statements or "revenue accounts". Premiums represent the full amount receivable in respect of policies issued or renewed in the year, less returns, rebates, and bonuses paid or credited to policy holders in the year; they are not adjusted for premiums unearned at the end of the year and consequently the amounts shown differ from "earned premium income" appropriate to the year. When figures are increasing, as in recent years, premiums receivable (as shown) are greater than "earned premium income" appropriate to the year; the converse applies when figures are declining. Claims include provisions for outstanding claims and represent claims incurred in the year. Contributions to fire brigades, commission and agents' charges, and expenses of management mainly represent payments in the year. Taxation also mainly represents payments in the year, and the amounts included for income tax therefore relate to income of earlier years.
